SETUP ÜBERNEHMEN

7. go to "time" (uhrzeit) and use the mouse and keyboard to set the time correctly

8. Press after the clock, set "date and time set "
(datum und uhrzeit setzen)

9. and then press "take over setup" (setup übernehmen)
below

10. Disconnect electricity

11. Insert the SD card back into the player

12. Remove the mouse and keyboard

13. Plug in the power cable

Clock start after 30 seconds

for detailed setup of the player go to

http://marck.work/human_clock_setup/

Internet

!!!

you can also connect the player directly to the internet for the time. the player will then always take the time off the internet because the internal clock is not very precise.

Please contact a network specialist.
